Digital Inspection Videoscope
BK5600DUAL55

BK5600DUAL55 Digital Inspection Videoscope

The BK5600DUAL55 Digital Inspection Videoscope is the perfect tool for high-quality inspections in hard-to-reach areas. With its 5.5mm diameter HD camera, you'll be able to capture sharp, detailed images and videos in tight, dark or hard-to-reach places.

Its 4.3-inch color LCD screen allows you to view images in real time, and its dual sonar allows you to switch between right angle cameras or straight to adapt to different inspection environments. Furthermore, its design portable and durable allows you to take it with you anywhere, and its battery of long lasting ensures hours of continuous use.

FEATURES

1. 4.3" (109mm) diagonal LCD screen for enhanced viewing
2. Digital still image capture with included SD card storage
3. Includes 36" digital imager with 8.5mm diameter head
4. Touch screen interface allows easy selection of functions
5. Uses (6) AA alkaline batteries • 90° glass mirror and magnet retrieval accessories included
6. Includes a storage tray to store in the tool storage drawer for safety
7. Two-year warranty: service through repair centers of Snap-on®
